BYE # 44009-66-c

For insertion in Para. 2

Any government which the US approached would reflect upon the strong Soviet reactions to the U-2 overflight of May 1960. These governments would remember the extraordinarily harsh tone of Khrushchev's remonstrances to all of the states with which the Soviets knew that the US had arrangements in support of U-2 operations. They would probably estimate that the Soviet reactions would be even harsher this time.
